

Meet Vanessa Grant!

Ms. Grant will be teaching Middle School Math next school year. She believes making mistakes in mathematics is not seen as a failure, but rather an opportunity for growth. This year she taught math to 7th and 8th graders as well as Algebra I. Ms. Grant focuses on mathematical vocabulary and thinks it is one of the most effective ways to get students to understand mathematical concepts. Okanogan looks forward to having her as part of the team. Welcome Ms. Grant!
